

DISASTER MANAGEMENT

Official journal: Disaster Management Institute of Southern Africa

2021
rate card

Disaster Management (DMJ) is the official journal of the Institute of Disaster Management Southern Africa. The journal enhances DMISA's role in advocating international disaster management best practice, nurturing a culture of disaster risk reduction and fostering national and international communication networks and linkages.

DMJ also serves as a valuable resource for information and knowledge dissemination, education and training to not only proactively reduce disaster risks but also the efficacious management of disasters. The magazine will also promote the Institute: national and regional DMISA news and all disaster management related topics, events, conferences and disaster risk reduction initiatives.

The articles featured in this quarterly magazine include forwards from the President of DMISA, Mduduzi Nxumalo and Dr Mmphaka Tau, Head of the National Disaster Management Centre (NDMC). Each edition features a disaster management centre, research articles, industry opinions and viewpoints, technology updates and a news roundup.

Readership

The Disaster Management Journal is circulated to all members of DMISA as well as mayors and municipal managers; the national disaster management centre (NDMC); all disaster management centres; managers and stakeholders within SADC countries; South African Heads of Centres ie provincial disaster management centres (PDMCs); Metro DMCs and DMCs; members of the National Disaster Management Forum (NDMAF) and all relevant agencies ie South African national Defense Force (SANDF); South African Police Service (SAPS); South African Air Force (SAAF); Eskom; Transnet; National Ports Authority and private sector stakeholders etc.
